

Ultra High CRI 12V LED Strip for Home & Residential

Waveform Lighting's ultra high CRI LED strips brings together light that truly replicates incandescent and halogen lighting in a versatile and modern LED strip form factor.

Available in 2700K or 3000K with the industry's highest color rendering, objects will appear warm yet vivid, all the while consuming just a fraction of the energy.

The back side of the LED strip includes pre-applied 3M VHB® double-sided tape, which provides a simple but extremely strong adhesive mounting method for all of your projects.

The LED strips are 16.4 feet (5.0 meters) in length, and are conveniently reeled for quick and easy application, and can be cut to length every 1-inch (25 mm) with just a pair of scissors.
